Point of Sale

Release Update v1.11.201 – July 17, 2024

New + Improved

Optimized Connection with Precision Payment's Pin Pad

We're excited to release out some optimizations around the connection between the OrderDog application and Precision Payment's pin pad. The optimizations allow the two to talk more seemlessly. Since all of this is done behind the scenes, you won't notice anything beyond a more solid connection without interruption.
