

# Point of Sale

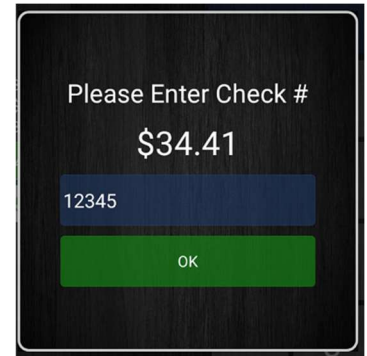

## Release Update v1.11.211 – August 13, 2024

### New + Improved

#### Record Check Numbers

Some have asked for the ability to add a check number when a customer pays with a check. With this update, you'll be able to:

- Add check number when customer pays with a check
  - Entering a check number is not required
- See the check number on the sales receipt
- See all the check numbers while closing a batch
- See a new “Check Summary” section on the Zreport

<b>TOTAL</b>	<b>\$86.99</b>

#### Type 2 Barcode – Qty with 3<sup>rd</sup> Decimal

We revised the quantity sold to allow up to 3 decimal places, to ensure the calculated price matches the price in the barcode (before discounts are applied). This applies to only type 2 barcode scenarios.

#### Deleted Items

Deleted items will now be removed from the point-of-sale and can be added back via the point-of-sale.
