

Portal Release Update v4.30.64– June 3, 2025

New + Improved

Time Clock Detail Report (Edit Dates)

We're happy to announce that in addition to being able to edit the times, you can now edit the start/end date of sessions and breaks. This will prove to be very useful when an employee forgets to clock in or out on the correct day.

You'll be able to make the change by either using the calendar or by manually entering the appropriate date.

Item Edit – Vendor's Wholesale Price

Within an item's edit page, there is a "Vendors" tab that lists the vendors that carry the item. The price column has been renamed to "Wholesale" to represent the vendor's wholesale price for the item.

Lookup Customers by Mobile Phone

We've made it easier to lookup customers via the customers page by making the mobile phone field searchable. You'll now be able to use either the Keyword search field or the phone field within the advanced search area to lookup customers by the mobile number.
