# Release Update v4.31.30– September 18, 2025

## New + Improved

## INFRA – Additional Features

We're incredibly excited to announce that we've added a few highly anticipated features to make processing Infra Deals and Everyday Deals an even better experience. You'll now be able to export any Infra campaign that is displayed, regardless of whether it's in the past or upcoming. In addition to this, you'll be able to see and filter items related to Endcaps.

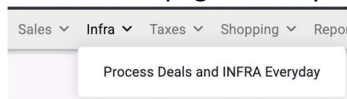

The ability to export any Infra Deal or Everyday deal is an incredible way to see the following about any item:

- Item Information (Approved or Not, Brand, Department, Description, etc.)
- Pricing (Deal Price, Regular Price, etc)
- Flyer Info (Deal Cycle, Deal type, Endcap, etc.)
- Print Options
- Item Inventory (On-hand, On-order, etc.)
- Sales History (6-month sales history)

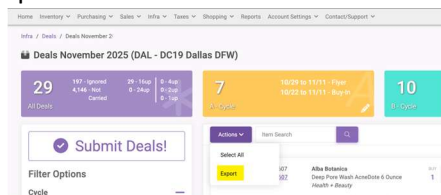

[illegible]

The steps to exporting any Infra Deal (or Everyday) are simple:

1. Navigate to the Infra page within your OrderDog account

- a.
2. Select the Edit or View Details button displayed on the desired Infra deal
3. Select the “Actions” dropdown
4. Select Export

5. An excel file will get exported with all the information about the items in the deal. It will automatically be organized into 3 tabs:
  - a. Approved+Ignored
  - b. Not Carried
  - c. All

When an Infra Deal contains Endcap items, you'll now be able to easily use the new Endcap filter to see them. The items related to Endcaps will also display Infra's corresponding Endcap planogram label.
